

...CHRISTMAS STOCKING

This fun kit contains all the components needed for you to make 5 large, fun Christmas stockings.

Step 1

With the help of a grown up, take the white felt pieces and carefully sew them onto the blue felt stocking shape

Step 2

Once you have the shape of your snowman, you can start to sew on his hat, nose, eyes and arms

Step 3

Take the last piece of blue felt and sew it to the back (just around the edge) to make a stocking shape. Hang it somewhere so hopefully it will be filled with presents on Christmas Eve!

Christmas Stocking Kit

Kit to make 5 stockings, contains stocking template and felt to decorate.
